

Grades K & 1 Enrichment

Adventures with Books and Crafts

Haack/ RE50AB

Do you love adventures? Then Adventures with Books and Crafts is for you. We will be reading exciting books with fabulous characters. We will create imaginative crafts to go along with each book. This is a story book adventure you don't want to miss.

Period 3, 4

Limit 15

Awesome Authors!

Cucci/ RE50AA

Calling all Kindergarten and first grade readers and writers! Come spend the summer with your favorite award-winning authors! Each week the class will feature an "author of the week". Students will listen to, read and discuss books by the featured author. Also, students will create several art and writing projects as part of this great literature experience. Students will create their own book complete with illustrations. This is a class for students who love books and being creative! Authors include (but are not limited to) Dr. Seuss, Jan Brett, Eric Carle, Leo Lionni and more! Students will enjoy discovering new authors and finding new favorites! We might just have some future "awesome authors" in our class!

Period 1, 2

Limit 15

Book Art

Singer/ RE5018

In this class we will explore the connection between picture books and art activities. We will read several selections of children's literature and create related art projects using a variety of media and materials.

Period 2, 3

Limit 14

Book Club

Tussing/ RE5020

If you love to read, then Book Club is the summer course for you!! We will read different genres (kinds) of stories both together and on our own. We will discuss the stories and create different projects for each genre of story. You will also learn to recognize the different qualities in each type of story so that we will be able to decide on our own what genre we are reading. During this course you will be asked to bring books from home or the library to supplement the reading that we are completing in class. Most of all, we will have FUN reading and discussing books!!

(1st grade only)

Period 4

Limit 15

Cheerleading Basics

Tinucci/Lakemacher/ PE5060

Cheerleading Basics is a class designed for anyone who wants to learn the basics of cheerleading from the current cheer coaches. In this class we will be working on basic cheer moves and dance. At the end of the summer, we will participate in a school performance to showcase a cheer/dance routine. Enthusiastic kids are encouraged to join in on the fun. We welcome all levels of experience!

Period 3, 4

Limit 24

Grades K & 1 Enrichment

Computer Connections

Hansen/ CP50CC

Come and connect your brain for some computer and technology fun! This enrichment class will have you computing and connecting all summer long. We will explore programs such as Kid Pix, Microsoft Word, iPhoto, Millies Math House, Bailey's Book House, Sammies Science House, Trudy's Time and Place House, Kidspiration and more. Internet Websites with learning games will be explored as well. Come make some cool computer connections in this class!

Period 1, 2, 3, 4

Limit 12

Computer Wizards

Winston/ CP5010

Here is an introductory class for all of you aspiring Computer Wizards. We will learn the basics of keyboarding, print documents, try our hand at digital photography, write e-mails, and surf the web. Even if you've never worked with a computer before, you will leave the class feeling like you are truly a techno-genius.

Period 3, 4

Limit 15

Dinomite

Jakielski/ SC5040

Would you like to move back in time and go on a journey with dinosaurs? This class is designed to help students build on the interest they already have in dinosaurs. It will help them develop better understanding of these fascinating creatures and the Earth's past. This class will integrate Science, Language Arts, Social Studies, Math, and Art. Students will learn the basic concepts about dinosaurs. They'll create a timeline of when dinosaurs lived. Students will investigate the characteristics of dinosaurs and their habitat. They'll learn about fossils and read books as well as view educational films related to the unit of dinosaurs

Period 3, 4

Limit 10-15

Exploring Zoo Animals

Kinnas/ SC5078

Do you love going to the zoo? Are books about wild animals your favorite to read? If so, this class is for you! Come and join me as we read, write, cook, and create projects about zoo animals. During this class your child will discover interesting facts about animals from around the world while increasing their reading and writing skills. They will also have time to explore different craft and cooking projects while learning about these interesting wild animals.

Period 1, 2

Grades K & 1 Enrichment

Fun with Disney

Wahls/ AR5020

Do you enjoy watching Disney movies? If you love Disney, then join the Fun with Disney class and help make the magic come alive! We will be watching Disney movies, listening and singing to the soundtracks and making art projects to go along with each movie. Get ready for tons of Disney Fun!

Period 3, 4

Limit 14

Games + Math = Lots of fun

Barker/ MA5020

Summer schoolers will review and expand their knowledge as well as increase their confidence in all aspects of math during Games + Math = Lots of fun. Students will be engaged in hands-on activities that focus on addition, subtraction, time, money, place value and problem solving. Learn to play Matrix Madness, Take 3, Build a Turtle and many more! A new activity almost everyday!!

Period 3, 4

Hand-Print Animal Art

Holoska/ RE50HP

Hand-Printed Animal Art is about having fun, listening, reading, and using math. Some of the fun comes from painting with your hands instead of brushes. Along the way, you'll listen, read, and answer questions to stories about some of the funny things concerning animals. You will improve your listening comprehension skills by listening for answers to key questions, and you will improve your sight vocabulary by reading about animals. You will use math measurement and fractions to create the size, form, and shape of your animals. Best of all, you're bound to learn a lot about animals. Just wait till you get started.

T-shirt or painting smock required

Period 3. 4

Holiday Decorators

Letourneaux/ AR50HD

Holiday decorating is a nostalgic love for many! People love to send and receive cards for the plethora of holidays we celebrate throughout the year! This course is designed to help students create such holiday cards for their friends and families. Students can create cards for any holiday they so choose. They will use art and creativity to make the cards their very own! **Note:** there may be some days we play games outside as reward days.

Period 2

Limit 12

(Offered to K thru 3rd)

Indoor Soccer and Floor Hockey

Anderson/ PE5110

Learn the basics, practice and improve your skills while playing indoor soccer and floor hockey. We will alternate the sports each week incorporating the skills we have learned.

Limit 12

Grades K & 1 Enrichment

Just 4 Girls

Wellman/ AR5048

Are you ready for some fun? If you answered yes then just for girls is the class for you. This class will have a wide range of activities that range from arts and crafts, jewelry making, cooking, knitting, flowerpot pens, and tie-dyeing. We will also be covering topics such as babysitting, helping the community, planning sleepovers, and scrap-booking. If you are up for a good time and want to complete some really interesting projects then sign up and find out what else this class has in store for you.

(1st grade only)

Period 1

Learning Safari

Huizenga/ LA50LS

Send your kids on a Learning Safari! It's a Wild Wild world out there, sign your kids up to learn all about it! Do your children love animals? Do they always want more information about them? This is the place for them to spend the summer. We will explore different animals from around the world while expanding their knowledge and gaining confidence in both math and language arts.

Students will take part in hands on activities which include reading and writing their own stories about animals, addition, subtraction, time and money.

They will also create fun craft projects. This course is open for two sessions each day for kindergarten and first grade students.

Period 3, 4

Let's go on a Reptile and Amphibian Adventure

Graff/ SC5090

"Let's go on a Reptile and Amphibian Adventure". Students in K and 1st grades come join us as we learn about the fascinating world of reptiles and amphibians. We will learn about creepy critters such as slithery snakes, freaky frogs, lively lizards, splendid salamanders, nifty newts, crafty crocodiles and awesome alligators. We will also investigate remarkable reptiles and amphibians through hands on activities such as games and crafts. A surprise amphibian will be joining our class.

Period 1, 2

Limit 14

Munching Our Way through Math

Luxon/ MA50MM

Who knew math could be so fun and delicious! Munching Our Way Through Math takes everyday math skills and turns learning into a fun and edible time. We will reinforce various math concepts including graphing, number sense, money, problem solving, time, addition, subtraction, and shapes through hands-on activities using yummy food.

Let's have fun Munching Our Way Through Math!

(Kindergarten and 1st graders welcome!)

Period 1, 2, 3, 4

Limit 14

Grades K & 1 Enrichment

Princess Perfect

Cucci/ LA5060

For every little girl who has dreamed of being a princess, “Princess Perfect” is the class for you! Kindergarten and first grade girls can spend their summer reading and writing stories all about princesses. They will compare and contrast different versions of princess books and movies. Each week they will create a fun art project fit for a princess. They will also have the opportunity to dress up as their favorite princess and attend a Princess Tea Party. Reading and writing are major components of the class. The little princesses will be having so much fun being royalty they will not realize how much they are learning too!

Period 3, 4

Limit 15

Science Through Stories

Malinoski/ SC5128

Spend your summer learning about Science through Stories! Students will be introduced to basic science concepts through literature and simple experiments. We will introduce each topic by sharing a nonfiction and fiction story. Then students will conduct an experiment or investigation expanding on the topic. Concepts will include plants, density, microscopes, simple machines, volcanoes, and many more!

Period 2, 3

Limit 14

Soccer!

Silasiri/ PE50SC

Acquire new soccer skills and develop your current ones at the Woodland soccer camp. Each class will meet for one hour a day. During this time you will be exposed to different skills and techniques, which will improve your game. We will be focusing on the basics of soccer: dribbling, passing, and shooting. There will be new and innovative drills for the students to learn from. Each day, the students can expect to play a soccer-based game where they can use the skill learned that day. The coaches for this class have played collegiate soccer and have coached children ages K-12th grade.

Period 2

Spanish for Youngsters

Eisen/ LA5080

Come have fun learning Spanish! Your child will learn numbers, colors, the alphabet, basic sentences, and vocabulary through the use of outdoor and indoor games, arts and crafts, and Hispanic stories. Everyday will be filled with a variety of hands-on learning activities for the beginning Spanish learner. We'll finish with a fiesta, food, music, and a piñata designed and made by the students. No previous knowledge of Spanish is necessary.

Period 1, 2

Limit 13

Grades K & 1 Enrichment

Summer Seuss

Valkenaar/ RE5130

Join Thing 1 and Thing 2 to discover the wonder reading can bring during Summer Seuss! I Can Read with My Eyes Shut! Can you? The ABC's and learning to read have never been so silly for students in grades K-1! Join Bartholomew the Yink, Sam-I-Am, Little Cats A B & C, the Knox, and me for a fun-filled summer of Silly Seuss-ish Science, Spelling, Math, Reading, Writing, and Fun! Each week we will read 2 new Seuss books and complete a variety of Cross-curricular activities, including science experiments, math activities, and art projects that will please even the snootiest of sneetches! Students will also use decoding skills and rhyming patterns to practice and reinforce reading skills while using their imagination to join the wild world of Dr. Seuss.

Learn to Read, Read to Learn.

Period 2

Limit 15

"The Artsy Reader"

Housh/ RE50AR

Come join your friends this summer and become an "Artsy Reader!" An "Artsy Reader" means you enjoy reading books, drawing, and painting!

Through this course you will enhance your reading experience by participating in lively interactive discussion on your favorite picture books. You will also have fun participating in irresistible art activities for each book read, illustrating what you learned or, what you think about the characters and plot, and how you feel about the stories. While becoming an "Artsy Reader" over the summer, you will be finding meaning and purpose in the books read, through story elements and visualization. In the end you will be a master of literature and will have found or enriched your love for reading and art.
