

FAMILY RESOURCES TO SUPPORT STUDENT LEARNING AT HOME

Parents/Guardians,

This list of resources has been created to help support your student while they are learning at home. Each of them is available at no cost to you. Please keep in mind that some of them do have a subscription option, as well as ask you to create a login in and provide user information to create an account. We suggest that parents monitor and set up the accounts themselves if you desire to do so.

If you have any questions, please contact Risa Cohen, Assistant Director of Educational Support at rcohen@dist50.net
