Review of Transportation Routing
options to support Bell time changes

Transportation Schedules

- Current Schedule – The 2018-19 bell time schedule with transportation times currently in place. Enrollment estimates include 3rd Grade Dual attendance at Intermediate.
- Alternate 1 – This moves the start time at Middle School from 7:30am to 8:30am. This is a 3 tier schedule with minimal impact on cost or transportation staffing issues. Times at the other schools are shifted to accommodate the change at Middle School.
- Alternate 2 – This moves the start time at Middle School from 7:30am to 8:15am. This is a 2 tier schedule that reduces the impact of the Middle School start times on the other schools. It shifts all start/end times towards the middle and has the Middle School students getting home first. A cost increase of \$328,710 per year is assumed with this model.
