Music Distance Learning Resources
(updated March 19, 2020)

Here are a few websites that can help K-8 students be engaged in music while they are at home! These websites are free and do not require any student log-in information.

https://www.musictheory.net/exercises
Allows students to practice music theory basics such as note names, chords, and instrument placements. They may also learn about the staff, meter, scales, and key signatures! Great for Intermediate and Middle School general music classes, Band and Choir students.

http://musicracer.com
Students will be able to challenge themselves to name notes on the staff, or fingerings based for their instrument of choice. Great for Intermediate and Middle School general music classes, Band and Choir students.

https://www.classicsforkids.com
This website offers lots of different games to teach students about various composers and time periods of music. Through these games, they are able to explore instruments of the orchestra, follow along to different beats, and navigate different countries and their respective composers. Great for K-5th grade students.

https://www.incredibox.com
Through various beats and sounds, students are able to create their own beat-boxing sounds by clicking and dragging various clothing items to a character of their choice. Mix and match the sounds to hear the different possibilities and create their own track! Perfect for middle school students; however, anyone can try to create music on their own.

https://www.lexingtonoperahouse.com/opera-house-information/tour
Explore the house and seating of the Lexington Opera House! Great for all grades!

https://pbskids.org/games/music/
For younger students, they are able to explore and create music with some of their favorite PBS Kids characters. Perfect for K-5th grade students.

Music Pizza: Make your own music for students in all grades.

https://musiclab.chromeexperiments.com/Experiments
Chrome Music Lab: Create your own sounds and music for students in all grades.
http://research.google.com/bigpicture/music/
Music timeline: interactive way to learn about all kinds of music for students 4th grade and up.

https://datadragon.com/education/instruments/
Learn about instrument families for all students.
